An **innovative magnet school**
that nurtures students' academic
achievement through music,
dance, theater arts
and visual arts.

WE FOCUS ON THE VISUAL AND PERFORMING ARTS

What makes Eliot Arts unique?

Innovative Academic Program

An Arts Focus - Students think creatively and work collaboratively with others.

Arts Integration - Students enjoy learning math, science, English, and history through arts-infused project based learning.

Excellent Academics - Students demonstrate creativity in their work and are prepared to implement innovations to make contributions in their future career fields.

Community Arts Partners - Students gain real-world experience from working professionals thanks to our partnerships with renowned arts and community organizations.

We are Music

Choir, Orchestra, Jazz, Marching, and Concert Band.

Music students learn to play, perform, and analyze music, as well as write, sing, and play songs. They become well-versed in industry-standard software and experts at playing various musical instruments.

We are Dance

From Ballet to Hip Hop.

The dance program emphasizes knowledge and skills in all types of dance, from ballet to hip hop. Students study technique and learn how to choreograph all the dance forms. Dance students work alongside professionals, including Lineage Dance of Pasadena.

We are Theater Arts

From Drama to Film and Video Production.

Theater Arts students can be seen working in a variety of projects including play production, technical theater design, and film and video production. Students have the opportunity to work alongside professional actors and directors from organizations like the Pasadena Playhouse.

We are Visual Arts Studio Art and Digital Art.

The Visual Arts Program consists of Studio Arts and Digital Arts. It is project-based and promotes problem solving and creativity. The award-winning visual arts students can be found finishing up a painting in the art room, or putting the final touches on a Photoshop document in the digital lab.
