Date & Time of meeting: February 15, 2017 at 6:30 p.m.
Present: Quincy Hocutt, Clifton Cates, Geoffrey Commons, Mikala Rahn, Glen DeVeer, Diana Verdugo, Willie Ordonez, Jen Wang, and Steven Cole.
Absent: Chris Romero, Derek Walker, Gretchen Vance and Joelle Morisseau-Phillips.
Pasadena Unified School District (PUSD) Board Member Liaison to COC: Pat Cahalan

I. CALL TO ORDER
The meeting was called to order at 6:32 p.m.  

Mr. Cates

II. APPROVAL OF January 18, 2017 MEETING MINUTES
Action: Ms. Verdugo moved to approve the meeting minutes as submitted. Mr. Commons seconded.
Vote: approved 6 to 0. 1 abstention.

III. NEW BUSINESS
A. Reappointment of members with terms expiring on February 28, 2017.  
Mr. Cates informed the Committee that Ms. Vance had submitted a written request to the Facilities Committee of the Board of Education asking for reappointment of the current committee members whose terms are due to expire on March 1, 2017. District Staff prepared a Board Report for the February 23 Board of Education meeting requesting the reappointments.

B. Solicitation and appointment of new members to the Citizens’ Oversight Committee
Staff will solicit the public for new member applications by the end of February. The application period will close on March 14, 2017 and interviews will then be scheduled. The COC will participate in the interviews of prospective new members.

C. Uniform standards for Proposition TT expenditures.
Mr. Cates and Mr. Hocutt drafted a “guidelines/standards” document to help clarify the areas appropriate for the expenditure of Measure TT bond funds. District staff and Board member input and feedback are being solicited on this document. COC members were asked to prepare comments on the document for the subsequent Committee meeting.

D. Uniform procedures for enabling timely Committee review of proposed Proposition TT expenditures
Mr. Cates asked the Committee and the Facilities Department to suggest procedures that would enable Committee recommendations to disapprove proposed Proposition TT expenditures to be received by the Facilities Committee and the Board in sufficient time for those bodies to consider
the recommendations before acting. Mr. Cahalan reassured the Committee that the Committee’s concerns regarding appropriate expenditure are being addressed at the Facilities subcommittee meetings. He added that they go through the Board analysis spreadsheet that the COC puts together, and staff provides justification as to why the expense is appropriate. The Committee will continue to work with District on improving the process, including changing the meeting date. Everyone in attendance was asked to reflect on the ideas and be prepared to reach a decision as to how to proceed by the next meeting and Facilities agreed to offer a proposal for consideration.

E. Review of previously considered Proposition TT expenditures
   i. Board Reports (BR’s) 1153 to 1167 (BR’s are requests for Measure TT expenditures) were individually discussed and then the Committee voted on whether they recommended disapproval or approval of the expenditure. BRs 1153, 1154, and 1155 and 1156 were approved. Mr. Hocutt requested Staff to consider the questions posed by the Committee on the Board Report analysis spreadsheet. Staff agreed to address those questions.

   BR’s 1157 and 1158 were presumed to be “placeholders” since specific data were not available at the time the BR was prepared. Discussion indicated this data would become available in time for a review by the Facilities Committee and for presentation to the Board of Education to make a decision regarding going forward with the work on Blair High School. Based on this explanation, the Committee approved proceeding with 1157 and 1158.

   On BR1159, the Committee did not agree with paying an outside consultant for closing out projects. They feel it is the job of the contractor to close the projects out and certify them closed with DSA (the Division of the State Architects). Mr. Cahalan suggested that staff prepare a presentation for the Facilities Committee on the process of closing out a project certified with DSA. The Committee disapproved BR 1159.

   On BR 1160 and 1161 questions were raised as to whether the Board had previously approved spending funds on the San Rafael and Linda Vista sites. Mr. Cahalan responded that the Board authorized certain expenditures on both of these sites.

   BR 1162 was noted as essentially accepting poor performance by a contractor and the Committee voted to not approve this BR. BR’s 1165 through 1167 were approved.

   ii. Payment of the salaries and benefits of District employees out of Proposition TT funds, as shown on the schedule entitled “Agenda Item IV.C.iii presented at the December 21, 2016 meeting

   Mr. Hocutt asked if consultants (“Project Managers”) were paid from Measure TT funds and why they didn’t appear on the employee list. Staff confirmed that consultants are contract workers and they are not District employees and the Committee had only requested a listing of District employees. (It is noted that salaries paid to the Project Managers have been stated by Facilities as being charged to the various projects they manage and thus are paid from Measure TT funds.)

   iii. Review of single sheet engineering drawing showing various changes at Norma Coombs referred to in BR 1124

   Mr. DeVeer provided a sample of how architects come up with plans. He feels that the district paid too much for the single drawing at Norma Coombs, as an example, and that the District should be paying closer attention to the procedures for approving cost proposals. It was agreed
that further discussions on costs being considered as “inflated” in various categories should be on future agendas.

F. Review of proposed Proposition TT expenditure Report
Ms. Rahn requested Staff to prepare a budget presentation for the Committee showing the current status of the budget and how much more is left to go. Staff agreed to provide this presentation.

G. Reports by the Chief of Facilities
Mr. Cayabyab provided the Committee with pictorial handouts on building proposals for the following sites: Roosevelt, Norma Coombs and Don Benito. There was no substantive discussion.

H. Status of Educational Master Plan and Facilities Master Plan update
Mr. Cayabyab informed the Committee that the Facilities Master plan study session will be held in April and his goal for the completed Facilities Master Plan is December of 2017. There was a brief discussion of the volume of reports the Committee receives before its meeting and it was agreed by Facilities that if a member requested a paper copy in addition to the electronically provided documents, then Facilities would provide one.

I. Report on activities of the New Members Subcommittee
This item was deferred until March since the two members on the sub-committee, Ms. Vance and Ms. Morisseau-Phillips, were not present.

J. Report by the Board liaison to the COC
Mr. Cahalan had been required to leave the meeting early, so this item was deferred to the March meeting.

K. Report by COC liaison to Facilities Committee
Mr. Cole informed the Committee that at the Facilities Committee meeting the Board Report analysis spreadsheet prepared by the COC was discussed and the concerns of the COC were addressed.

L. Report from site council representatives
This item was deferred until next month because Ms. Verdugo had to leave the meeting early.

M. Review of site council “talking points”
This item was not discussed and was deferred to a future meeting.

IV. Public Comment
There were no public comments.

V. Future meeting agenda items, dates, and locations
The next COC meeting will be held on Wednesday, March 15, 2017 at 6:30 p.m. at the PUSD education center on Hudson Avenue.
VI. Adjournment
The meeting was adjourned at 8:35 p.m.  

Mr. Cates
Location: Pasadena Unified School District Education Center, Room 229, 351 S. Hudson Ave., Pasadena, CA. 91109

Date & Time of meeting: March 15, 2017 at 6:30 p.m.

Absent: Chris Romero, Derek Walker, Joelle Morisseau-Phillips, Geoffrey Commons and Mikala Rahn.

Pasadena Unified School District (PUSD) Board Member Board Liaison: Pat Cahalan. Kim Kenne, President of the Board of Education, was also in attendance.

PUSD Staff: Miguel Perez, Construction Specialist.

I. Call to Order

The meeting was called to order at 6:30 PM

Mr. Cates

II. Approval of minutes of February 15, 2017 meeting

February minutes was not available in the meeting package for members to vote upon for approval. District staff had not provided draft minutes in a timely manner for Committee members to review before the meeting.

Ms. Wang

III. BUSINESS

A. Preparation of meeting minutes

Ms. Wang, Messrs. Hocutt & Cates

i. Current state of affairs

There was a lengthy discussion regarding preparation of the minutes, specifically questioning the District’s duty to provide services as part of the District’s administrative support included in the language of Prop 39 and the COC by-laws. Staff agreed they were recording the current meeting and hoped to provide the verbatim transcript and the minutes for this meeting.

ii. Plan adopted at September 21, 2016 meeting

Mr. Cates stated that at the September 2016 meeting, the District had agreed with the COC to prepare and provide the minutes.

iii. Education Code sec. 15280(a), COC bylaws sec. 7.1(c)

Mr. Cates stated that base on the COC bylaws the District has the obligation to provide administrative assistant to the COC; he also noted that this administrative assistance couldn’t be paid from Measure TT funds, per the Education Code.

iv. History: Mr. Cates stated that there wasn’t a problem with the October, November, December or January minutes and questioned why things had changed.
**Action:** Mr. Cahalan offered to take the problem of preparation of the minutes to the person(s) who could resolve it.

**B. Proposition TT Financial Report: Current status, problems, action**  
Mr. Hocutt made an extensive presentation demonstrating that the information contained in the current Financial Reports provided by Facilities is not transparent, hard to understand, and in some cases they are misleading the public. The central questions discussed were regarding an inherent conflict of interest, as the entity controlling the budget is the same entity reporting performance against the budget. The current reports are also less useful than they should be from a managerial viewpoint.

A transcript of the questions asked and answers provided is shown below:

*Statement on PUSD Website*

The Citizens’ Oversight Committee is responsible for monitoring project management and expenditures for the $350 million local school facilities bond passed by voters in November 2008. The Citizens’ Oversight Committee members play a critical role in ensuring fiscal accountability and transparency to the public about progress on construction projects undertaken with Measure TT funds. The Committee works closely with the Board of Education and the Superintendent to ensure that projects are completed as planned, within budget, and in accordance with the law.

**“Jeopardy” Questions**

- Where would you publicly access the Measure TT budget to study it? Until last month, it was not posted. At the COC’s request, it is now on the COC website.
- What were the actual expenditures to build the Blair MIDDLE School? History of completed projects does not appear in the reports.
- What types of costs are covered in Career Technical Education at Blair High School? What has been spent on it? $26 million budgeted in total with $1.4 million at Blair. Nothing spent. Originally set up to procure computers & laptops. Will be phased out and returned to contingency.
- Roosevelt Elementary School is budgeted for a multipurpose facility. What percent complete are they on that project? What quarter of what year are they scheduled to be complete? No data of this type exists.
- What were the actual costs to construct Sierra Madre Middle School? BR 1165 reported the cost at $27.8 million. Do the two reports agree? $37.8 million on the report does not agree with the BR data.
- What is covered in the line item entitled “Measure T E-rate” at Marshall Fundamental Secondary School? It has been stated it is for technology infrastructure to support computers. Expenditures on the report are $438,000 at Marshall and $5.1 million in total. Can be returned to contingency.
- What is covered under the heading of “Technology Modification?” Are we about complete with that program? It appears similar to Measure T E-rate??? Percent complete is undetermined.
- How much have we expended on the modernization of Linda Vista Elementary School? Were we budgeted for that? $129,000 is spent, perhaps for a needs analysis or CEQA or architectural history. Budget appears to be zero.
- What organization’s performance is being tracked by this financial report? What organization allocates the budgets and reports the actuals for this report? Facilities and Facilities. This non-separation violates budgeting principles.
- Bonus question: Measure TT is a $350 million bond. What is the total budget on this report? $343.8 million

The Facilities Committee of the Board of Education has approved a large number of Board Reports in the last six months. Where are those indicated on the report with a line item and showing an increase in budget? Nothing indicated. Covered under modernization. As a BR is approved, it is assumed to be covered under the previously established modernization budget. They will be adjusted over time as they are needed.
Where do you see coverage for the salaries of the Project Managers for the various school projects? Doesn’t show. They may be in the individual projects but there are indications it may be in Facilities Administration.

Who is the project manager for the modernization of Blair High School? That information doesn’t appear.

Is “Facilities Administration” (under District Service Center) currently on budget? How is that budget allocated? It is currently over by about $400,000. Facilities meets quarterly to adjust the budgets.

**ACTION:** The COC will formally ask Staff to consider revising the format of the financial report to provide improved information to the Board of Education and the public.

**C. Uniform standards for Proposition TT expenditures  Mr. Cates, Mr. Cayabyab**

i. Member Comments: Mr. Cates informed the Committee that he has received several comments on the draft of the “Guidelines For The Expenditure Of Measure TT Bond Funds,” and that the Committee would wait for other comments; no further action on the matter will be taken until the next meeting.

ii. District Comments: District staff has responded via iPhone that no new guidelines were needed and that Proposition 39 statements were sufficient.

**D. Uniform procedures for enabling timely Committee review of proposed Proposition TT expenditures**

i. Possible change of COC meeting date to precede Facilities Committee meeting

ii. Other steps to ensure that the Board has a real opportunity to consider the COC’s recommendations

With regard to items “i” and “ii”, a discussion was held presenting the pros and cons of moving the COC meeting to a previous week to ensure the Board has time to consider COC recommendations.

Due to complications in that proposed process, no decision was made and the item was tabled for the next meeting.

**E. Review of proposed Proposition TT Expenditures: Board Reports 1168-1179**

Mr. Perez provided information on the positive results achieved in staff’s negotiations with PJHM for Engineering Services for running track resurfacing and other related improvements at Blair High, Elliot, and Washington. After negotiations, proposal costs were reduced by 30% ($54,307) for Blair and Elliot; and an additional scope was added for Washington with no increase in fees. Mr. Perez informed the COC that the fee reduction was in good part the result of staff’s classification of the track resurfacing projects as non-DSA projects, which by their nature generate additional work for the architects.

Mr. Perez explained that the option of getting an overall lower price by joining all three projects into one with a reduced cost due to a volume discount, as had been suggested by the Committee, was not possible.
Mr. Cates asked Facility to provide a copy of bylaw to the Committee which stating why projects have to be independent, even though they are almost identical in content.

**Action:** BR’s 1169, 1170, 1171, 1174, 1175 and 1176 were approved with 6 votes for, 0 against and 1 abstention.

BR’s 1172 and 1173 previously proposed to be disapproved, due to the non-combining of three projects into one, were also approved (with 2 votes against) based upon the explanation of the non-option of combining the designs for three almost identical running tracks, and the cost savings resulting from Staff negotiations.

**F. Reports by the Chief of Facilities**

There was no report on the status of construction projects by District Staff.

To help facilitate future status reports on construction, Mr. Hocutt distributed a proposed “Construction Status Report” form for consideration. He proposed that Project Managers would make inputs to such a consolidated form on a monthly basis. The information requested for each school with ongoing construction projects would be: Projects in Work, Progress/Issues this Month, an estimated percentage of completion, and the Project Manager’s name. Staff and COC members were asked to consider using this form and to provide input by the next COC meeting.

**G. Committee membership**

i. Reappointment of members with terms expiring on February 28, 2017:

**Action:** The names submitted to the Board of Education were approved unanimously for an extended term.

ii. Solicitation and appointment of new members:

Pat Cahalan informed the Committee that two seats are still open, and recommended to extend the period for accepting new members. As two current members must be excused, four seats will be required.

**Action:** The proposal to extend the deadline for new applicants was approved unanimously.

iii. Membership criteria

A suggestion was made on the advisability of a background check requirement. No decision was made at this time.

**H. Report by Board Liaison to the COC**

There was no new information reported by the Board Liaison.

**I. Report by COC liaison to Facilities Sub-Committee**

It was reported that the Board Liaison has conveyed COC concerns to the Facilities Sub-committee.

**J. Report from site council representatives**

Ms. Verdugo informed the Committee that parents at her school sites keep thinking that she is a District representative, and she keeps reminding people she is not. It was also mentioned that the PHS Principal had a problem cleaning the goose excrement, which
cannot be power washed due to Pasadena water restrictions. It was noted that the current water restrictions have exemptions for instances of sanitary clean ups.

IV. Public Comment
A public comment was made that delays in repairing of the roof at Linda Vista had increase the possibility to the District that it will have to construct a new building.

V. Future meeting agenda items, dates, and locations
The next COC meeting will be held on Wednesday, April 19, 2017 at 6:30 p.m. at the PUSD education center on Hudson Avenue. Agenda items will be developed and distributed before this meeting date.

VI. Adjournment
The meeting was adjourned at 9:08 PM.  

Mr. Cates
Location: Pasadena Unified School District Education Center, Room 229, 351 S. Hudson Ave., Pasadena, CA. 91109

Date & Time of meeting: April 19, 2017 at 6:30 p.m.

Absent: Chris Romero, Derek Walker, Geoffrey Commons and Gretchen Vance.

Pasadena Unified School District (PUSD) Board Member Board Liaison: Pat Cahalan was absent. His substitute was Kim Kenne, President of the PUSD Board of Education

PUSD Staff: Miguel Perez, Construction Specialist attended, sitting in for the absent Nelson Cayabyab, Chief of Facilities, and Nadia Zendejas, Executive Secretary.

I. CALL TO ORDER
   Mr. Cates
   The meeting was called to order at 6:30 PM

II. Approval of meeting minutes for February 15 and March 15, 2017
    Mr. Cates
   The February 2017 and March 2017 draft meeting minutes were not distributed with the agenda. Therefore the COC members did not have adequate time to review the minutes before voting for approval. A Committee vote for approval was deferred until the May meeting.

III. BUSINESS

   A. Current state of preparation of meeting minutes
      Ms. Wang
      Mr. Cates noted that the District failed to include the minutes with the Agenda that was distributed. Most of the documents referred to in the Agenda were not included despite the COC’s specific request. It was also noted that the District had not posted the Agenda in a timely manner as required by the Brown Act.

      There were several comments on the District’s current lack of necessary and required administrative support to the COC. The following questions were posed: Why has the Chief of Facilities withdrawn administrative support to the COC as required by law? Why is the Chief of Facilities not attending the COC meetings? Mr. Perez was unable to provide an answer to these questions.
The COC members agreed that the Chief of Facilities and the Executive Secretary should attend the COC meetings, as has been the customary and required practice. Several options to resolve the District’s lack of necessary administrative support to the COC were discussed; among them was a proposal to send a letter to the Board of Education, to the Facilities Committee and to the District Superintendent.

ACTION: Mr. Cates is to send a letter to Mr. Cayabyab asking that the executive secretary be returned to the COC meetings to provide administrative support, as is required by law and as agreed to by the District.

Ms. Wang clarified the process of preparation and submittal of COC Minutes: the COC Minutes Committee should receive a first draft of the minutes by the District Staff within one working week after the meeting; then a modified draft would be sent out to all COC members for their review. That draft is aided by the presence of the verbatim transcript provided by District Staff. After two weeks, when comments are received back and incorporated by the Minutes Committee, a final draft is sent to Facilities for inclusion with the agenda. These minutes are included with the agenda to be voted on for approval at the next COC meeting.

B. Proposition TT Financial Report: objectives, current status, problems, required action

i. Objectives

Mr. Hocutt revisited the content and importance of “Executive Summary – Status of Measure TT” report that he had previously presented to the members and submitted to Facilities for its preparation. This new report would provide an executive level summary of projects in work chargeable to Measure TT and it has been discussed extensively with District Staff. The proposed report would tell the Board of education and public where the District stands financially with respect to each Proposition TT-funded project by showing key items of information:

- The original amount budgeted
- The current budget (which will necessarily include all changes to the current budget)
- The amounts expended to date (including current commitments for expenditures not yet made)
- Percentage of completion
- Estimated date of completion
- Estimated remaining cost of completion
- Estimated total cost of construction
- Total estimated cost compares with the most recently budgeted amount
- Whether budget changes were approved by the Board
- Identification of contractors and program managers
- Identification of the Project Manager.
Mr. Cates noted that the COC and the Board can be overwhelmed with the massive amounts of data currently provided to them by the Facilities Department, that the COC, the Board, and the public need a clear, concise executive summary showing what each project was supposed to be, where it currently stands, and where it is heading. The COC has been requesting this information from the Facilities Department since February.

District staff noted that they had responded with some questions about the report. Mr. Quincy stated he would work closely with Staff to ensure an understanding of what is required and how to achieve it. Staff committed to provide the requested report once they understand.

ii. Meeting with Facilities Dept. on April 4, 2017

It was reported that the COC Audit Committee had met with District Staff on April 4 to discuss the preparation of the Executive Summary report. Questions still remain, and as noted above the COC is willing and able to meet with Staff to work together in making the report happen.

iii. Response of Facilities Department and reply of COC

Mr. Perez provided the COC members with a report identified as “Remaining MTT Budget & Commitments (based on expenditures to 3/4/17)” including the following data items for each project:

- FY 16-17 Remaining Encumbrances,
- Final Budget after Encumbrances (FY 16-17 thru 2020),
- Total MTT Cash required, and the Construction Completion percentage (including the initials of the Project Manager responsible for it).

This report is not a substitute for the report that the COC wishes to create.

Mr. Perez affirmed Staff’s commitment to provide COC the requested Financial Report as per COC’s template, and noted that there are things that need to be clarified and agreed upon to provide a report with the precise content the COC is asking for.

iv. Current state of affairs

The COC is waiting for the District to provide the information the COC has requested from the Facilities Department. Facilities has asked the COC to provide clarification on several topics and the COC has agreed to meet with Facilities staff to resolve any questions they may have.

C. Review of sample “Needs Assessment”

Mr. Hocutt
Mr. Hocutt reviewed the Franklin Elementary School Assessment Report prepared by PJHM Architects and highlighted several issues he thought were relevant.

Mr. Hocutt noted that at the April 13, 2017 Board of Education special meeting, the Chief of Facilities (Mr. Cayabyab) asked the Board to prioritize projects to be completed within the approximately $126,000,000 still remaining in the measure TT Fund. Mr. Cayabyab has presented the Board a list of school projects with priorities proposed by District staff. The Board has been asked to prioritize projects to fit within the available funds.

Mr. Hocutt noted as an example that the Franklin Elementary Facility Needs Assessment included urgent roof repair work that was needed in 2016, but no funds for that purpose are included in the April “Spend-out Plan” proposed by the Facilities Department. Mr. Quincy asked: “What was the purpose of the needs assessment?” The Committee asked why the District should perform a needs assessment, at a high cost, if it is not going to use that information to allocate funds for repairs. Ms. Kenne suggested and hopes that if a needs assessment is to be done for a school, that budget should be separated from the construction budget for visibility.

The use of TT funds to prepare a “needs assessment” was also questioned by several members. Mr. Perez showed the text of the Measure TT Ballot, suggesting that planning costs, like the Facility Needs Assessments, are part of allowable TT expenditures.

It was also requested by the Board member that when the project budget format is revised, the descriptions of the projects should be enhanced so that it is clear what the project actually is. It was also requested of Staff that in the eventuality of project priority changes (such as emergencies), that the budget reports make clear what projects have been reduced or supplanted to provide budget for the new priority.

Decision: It was agreed to submit to the COC’s independent legal counsel an inquiry as to whether or not it is legal to pay for a project’s needs assessment out of current TT funds when the project itself must be funded from a future bond fund. A second question to be asked is whether it is legal to pay for a new Facilities Master Plan including such future project out of Measure TT funds.

D. Current status of proposed expenditures for the 3 athletic tracks (Board Reports 1172, 1173, and 1177)

   Mr. Hocutt

   i. Law requiring separate bids (promised by Facilities on March 15, 2017)

      Mr. Perez informed the COC that he had not found any laws requiring that similar projects should be bid separately.
ii. Current status
The design and construction of the three athletic tracks was not approved in the March 31, 2107 Board meeting, even though they are now included in the list of Projects submitted to the Board for their review and approval.
It was noted during this discussion that many of the questions raised in a particular COC meeting by the Committee are not followed up and answered by Staff in a timely manner.

E. Uniform Standards for Proposition TT expenditures  
Mr. Cayabyab, Mr. Cates
i. Member-recommended changes
Some comments have been received. Mr. Cates asked that if members have suggested changes, they should make them to the existing draft. In this manner, the Committee can arrive at a final language for the document. In preparing these standards, the COC welcomes the input of the Board and the Facilities Department, although the Chief of Facilities has previously stated that no such standards are needed, that the text of Proposition 39 is sufficient.
ACTION: Mr. Cates will re-send the document to the committee with a due date.

ii. Final adoption
The approval of the proposal for a “Uniform Standards for Proposition TT Expenditures” was deferred until the next meeting

F. Uniform procedures to insure timely Committee and Board review of proposed Proposition TT expenditures  
Messrs. Hocutt, Cates, Cayabyab and Cahalan
i. Prior recommendations
1. Possible change of COC meeting date to precede Facilities Committee Meeting. The Committee did not arrive at a better COC meeting date than the one that current exists at this time.

Decision: It was decided to defer any action until the new Board of Education members are sworn in and any possible schedule changes they may make are implemented.

2. Other steps to insure that the Board has an ample opportunity to consider the COC’s recommendations.

ii. Current status
The COC meetings are held less than 24 hours before the Facilities Committee meeting. Members of the COC believe that this short period gives the Facilities Committee insufficient time to evaluate the COC’s recommendations. It was recommended that suggestions and comments from the COC regarding items to be
discussed at the Facilities Committee be e-mailed to that Committee before their meeting and that the COC representative at the Facilities Committee read those notes aloud and into the record. The Facilities Committee materials are usually posted only 72 hours in advance of their meetings; so COC needs to meet and act within that time period.

G. Recommendations for spending the remainder of Proposition TT funds  

Mr. Hocutt

The selection and priority of projects to be charged to Measure TT is a decision of the Board of Education, not the COC.

H. Review of newly-proposed Proposition TT Expenditures  

Mr. Hocutt

No Board Reports were submitted for consideration by the COC at this meeting.

I. Report by the Chief of Facilities  

Mr. Cayabyab

Mr. Perez informed the Committee that the contracts for the various Project Managers (paid as independent consultants and included within a project’s expenses) will be renewed in May-June.

Mr. Perez provided six (6) sets of reduced copies of the Facilities Master Plan of April 13, 2017, (also referred to as the “spend-out plan”) and informed the Committee that the complete document had already been emailed to all the COC members, and that it was available on line.

J. Committee membership  

Mr. Cates

i. Reappointment of members with terms expiring February 28, 2017

All existing members who wanted reappointment were reappointed by the Board.

ii. Current status of solicitation and appointment of new members

No information was available from the Board with regard to the status of the solicitation and appointment of new members. (Currently there are 11 members of the COC against a maximum of 15 allowed.)

iii. Removal of members for non-attendance

Mr. Chris Romero and Mr. Derek Walker were removed from the COC for non-attendance at the COC meetings.

iv. Status of new member orientation package

Ms. Morisseau-Phillips is to report on actions taken by the membership sub-committee at the next COC meeting.

K. Report by Board liaison to the COC  

Mr. Cahalan

Mr. Cahalan was absent; thus there was no report.
L. Report by COC liaison to Facilities Committee

Mr. Cole

Mr. Cole informed the COC that Mr. Cahalan had reported to the Facilities Committee the comments by the COC on submitted Board Reports. As discussed previously, the COC will be put on the agenda for future Facilities Committee meetings to provide any reports or comments the COC feels necessary to provide.

M. Report from site council representatives

Ms. Verdugo

Ms. Verdugo informed the Committee that Dr. Shaw, Chief Academic Officer, gave a speech at Roosevelt Elementary about Educational Processes on Math and English, and thoughts on the transition from middle school to high school. At Roosevelt there will be construction work in the back alley and the Site Council wants it to be completed as soon as possible. They also want to enlarge the access gate to have a speedier pickup and delivery of the students and they also want to build a new sidewalk.

Mr. Cole informed the Committee that there was a Site Council meeting held at Blair with the neighborhood, the Contractor, the Project Manager and others; at this meeting questions from the community were answered.

Ms. Verdugo informed the Committee that on Wednesdays or Thursdays she would be willing to attend Site Council meetings that others could not attend.

IV. Public Comment

There were no public comments.

V. Future meeting agenda items, dates, and locations

The next COC meeting will be held on Wednesday, May 17, 2017 at 6:30 P.M. at the PUSD Education Center on Hudson Avenue.

VI. Adjournment

The meeting was adjourned at 8:55 PM.
May 11, 2017

Dr. Brian McDonald
Superintendent, Pasadena Unified School District
351 S. Hudson Avenue
Pasadena, California 91109

Dear Dr. McDonald:

The Citizens’ Oversight Committee has directed me to write to you to raise two unresolved problems that are impeding the Committee’s ability to perform its statutory oversight functions: (1) the failure of the Facilities Department to provide essential information about the status of Proposition TT-funded projects and (2) the poor quality of administrative support provided by the Facilities Department to the Committee for the last several months. I hope that with your assistance we can resolve these problems so that both the Facilities Department and the Committee can perform their respective duties more easily, efficiently, and pleasantly.

1. Request for Information

Although the Facilities Department produces massive amounts of data pertaining to Proposition TT-funded projects, no one report shows all the basic information that the Committee, the Board of Education, and the public need to know about the status of each project. As part of its oversight function, the Committee has therefore undertaken to generate such a report, one which will be an executive summary of all TT-funded
projects. This report will include for each project the following information in one place, in easily understandable format, and juxtaposed to permit comparison:

- The original amount budgeted
- The current budget as approved by the Board
- When any changes to the budget were approved by the Board
- The amounts expended or committed to date
- Percentage of project completion
- Estimated date of completion
- Estimated remaining cost of completion
- Estimated total cost of construction
- How such estimated total cost compares with the most recently budgeted amount
- Identification of contractors and program managers

A particularly significant feature of the report is that it will permit easy comparisons between what was planned, where a project now stands, and where it is headed. For example, if a project is estimated to be 50% complete but 90% of the budgeted amount has already been spent or committed, further scrutiny is probably warranted. Similarly, if the Board has approved a budget of $15 million for a project but the total cost is now estimated to be $20 million, where is the authority for spending the additional $5 million?

The Committee is not asking the District to generate another report. This is something that the Committee will do itself based on information supplied by the District. Providing that information should entail little effort, because the information is already in the possession of or readily available to the District. But only the District can provide it, particularly the information pertaining to budgeting and percentage of completion.\(^1\)

2. Administrative Support of the COC by the District

Section 15280(b) of the Education Code requires the District to “. . . provide the citizens’ oversight committee with any necessary technical assistance and [to] provide administrative assistance in furtherance of its purpose and sufficient resources to publicize the conclusions of the citizens’ oversight committee.” Under section 7.1 of the Committee’s bylaws, such administrative support includes preparation of agendas,

\(^1\) The Committee realizes that percentage of completion requires an estimate, but estimates are commonplace for construction projects and can be made by the project manager. Any reasonable, consistently applied method chosen by the District will suffice.
minutes, and reports. Section 7.2 of the bylaws provides that “[d]istrict staff shall attend all Committee proceedings in order to report on the status of projects and the expenditure of bond proceeds.”

In the Committee’s opinion, administrative assistance provided by the Facilities Department since February has been unsatisfactory. Most problematic has been the Chief of Facilities’ failure to attend Committee meetings and his substitution of a staff member who, while complaisant and cooperative, does not have the authority to speak on behalf of the Facilities Department or the knowledge to answer many of the Committee’s questions. The attendance of the Chief of Facilities at our meetings is essential. This problem may have been rendered moot given the Chief’s recent announcement that in future he will usually attend the meetings. We on the Committee sincerely hope that he does.

A major aspect of the administrative support that the District is required to provide is preparation of Committee meeting minutes. However, this task does not rest solely on the shoulders of the District. It is a collaborative venture. Last September the Facilities Department and the Committee agreed that a representative of the Department would provide a verbatim transcript and a first draft of the minutes and that the Committee would take it from there. That system worked reasonably well until February, when Facilities ordered a new, inexperienced staff member to perform those functions. Through no fault of his own and despite his best efforts, which were considerable, he could not do so.

The Committee complained about this state of affairs, and the Chief of Facilities has now proposed that the Facilities Department provide a private stenographer to transcribe Committee meetings. While this approach would certainly fulfill the Facilities Department’s obligation, one can reasonably ask whether the $600 to $1000 cost per meeting is a wise expenditure of limited funds, particularly since this function was previously performed by a Facilities staff member at no additional cost.

By law the cost of such administrative support by a private stenographer cannot be paid out of Proposition TT funds. The Chief of Facilities has advised me that the cost would be paid out of remaining Proposition Y funds. I have not researched the matter, but I wonder whether the Proposition Y ballot measure had a restriction similar to that contained in the Proposition TT ballot measure. If it did, then Proposition Y funds cannot legally be used to pay for a private stenographer.
3. **Conclusion**

I realize that there is an inherent tension between those who oversee and those who are overseen. I also realize that the Facilities Department has an important job to do. But so does the Committee. We have no choice. It is what the law requires.

In order to foster a more cooperative and productive working relationship between the Facilities Department and the Committee, I am happy to entertain your suggestions and to meet with you in person, preferably sooner rather than later.

Sincerely,

Clifton B. Cates  
Chair, Citizens’ Oversight Committee

P.S. The Committee has directed me to send copies of this letter to all members of the Board of Education.

MTGL requests a time & material basis contract to be provided hour by hour as scheduled. MTGL reviewed the plans, specifications, and required inspections as defined on the DSA Form 103 for required conformance testing. MTGL understands the project will be to modernize an 85,277 Sq. Ft., three story structure over 590 days.

Many variables in construction provide difficulty in establishing the anticipated costs for Professional Services which are compensated hourly. MTGL’s proposal utilizes a **consistent unit rate for inspection** to provide value, and defined at 1% of the DSA’s listed value.

PROJECT APPROACH

MTGL, Inc. recognizes that each project is different, presenting a unique set of conditions and challenges. Our staff does not approach the same methodology to every project. With each project, our staff develops an implementation plan unique to the specific needs of the project and client. Although we customize our approach to each project, our experience in providing services throughout Southern California identified several approaches that greatly improve the project’s quality and efficiency.

UNDERSTANDING THE PROJECT

The first step in any project is to gain a full understanding of the project parameters, needs and specific conditions. Upon notice to proceed, our Project Engineers will work with PUSD or their representative to gain a thorough understanding of the project. Our Engineers and Project Managers will then review all available data. DSA has described this project as Additions to 1-Existing Administration, Library, Student Store.; Alterations to 1-Exist. Classrooms.

TEST AND REPORT DELIVERY TIMELINE

LABORATORY TESTS

MTGL, Inc. strives to provide test results in a timely manner. Laboratory results of concrete compression testing often are the indicators of compliance for stripping of forms. Results will be faxed/e-mailed to the jobsite daily if needed. Should testing reveal a deficiency the Contractor and District will be notified by way of a telephone and e-mail within two hours.

Final laboratory reports for typical tests are provided within seven (7) calendar days. If requested, preliminary verbal results can be provided within one business day. In the event that a sample yields abnormal results or fails a test, we provide verbal notification within 2 hours, with the final written report delivered within 24 to 48 hours. After a failed test, we fast-track reporting of subsequent re-tests and provide a final report within 3 to 4 business days, or sooner per client request. A record of all testing will be kept for the final verified report at the completion of the project by our engineer.

Section 1704A.15
CONCRETE CONSTRUCTION
Concrete construction services can include, but are not limited to, mix design review, reinforcing bar placement inspection and verification, batch plant inspection, observations during concrete placement, and field sampling/testing of concrete to include verification that the proper mix is being utilized, concrete slump, temperature, air entrainment, unit weight, and fabrication of concrete cylinders for compression testing. Appropriately certified (ICC and/or ACI) technicians will conduct the indicated services. Daily inspection reports will be provided to the authorized PUSD representatives.

Laboratory concrete construction testing services can include tagging and sampling of reinforcing steel at the production plant and reinforcement bar testing for tensile and bend, as well as compression testing of test cylinders. Laboratory test reports will be issued as discussed further in this report.

MASONRY CONSTRUCTION
The certified masonry special inspector services will consist of verification of materials to include reinforcement, concrete masonry units, mortar and grout. Following their verification they will observe the contractor during placement of reinforcement, placement of concrete masonry units, to include observation of motored bed and head joints, and grout placement. During grout placement our inspector will verify pour heights, check for proper clearances and check for proper consolidation during vibrating operations. In addition to their observations and verifications, material sampling will be performed on mortar, grout and concrete masonry unit (CMU) prisms to verify compressive strength per project specifications. Daily inspection reports will be provided to the authorized PUSD representatives. Laboratory test reports will be issued as discussed further in this report.
STRUCTURAL STEEL CONSTRUCTION
An American Welding Society (AWS)-certified CWI inspector will review plans, specifications, and approved shop drawings as part of the structural steel construction inspection services. The inspector will review applicable sections of referenced codes, particularly the American Welding Society Structural Welding Code (AWS D1.1) and the Manual and Specifications of the American Institute of Steel Construction (AISC). The inspector will review welding procedures qualifications when other than standard AWS pre-qualified joins and procedures are involved. The inspector will check each welder’s certification and verify that the welder does work only as covered by their certification. The inspector will keep a written record of each welder by name. The inspector will inspect joints for proper preparation, including bevel, root faces, root opening, etc. The inspector will observe multi-pass welds continuously. Daily inspection reports will be provided to the authorized PUSD representatives.

Fabrication inspection often is required out of the county. MTG_li, Inc. has three offices in Southern California and will service the request with our closest local office to offer the most cost effective approach to the district. MTG_li, Inc.’s AWS-certified inspectors will review mill test reports and check heat numbers with material as received. The inspector will verify that proper identification of steel is maintained during fabrication. Sometimes Steel Fabrication are needed out of State. MTG_li, Inc. has effectively provided inspections in Arizona, Utah, Iowa, Texas, and Minnesota. Final verified reports will be created and kept on file at the completion of each stage for a timely affidavit for project closeout and certification.

TORQUE TESTING AND PULL TESTING
MTGL, Inc. can perform Torque Testing and Pull Testing for epoxied/embedded anchorages as requested or required by the project documents/representatives. The request for such services will be scheduled by your on-site representative. Our dispatch department will assure we have the proper values for tension and the size and location of the bolts. Daily inspection reports with the results of the testing will be provided to the authorized PUSD representatives.

FIELD REPORTING
A daily report will be issued at the completion of the day with verified service hours signed by the DSA Project Inspector. The District’s Project Manager, Architect, Structural Engineer, and General Contractor’s Project Manager will be sent the reports, as appropriate.

PROJECT CLOSE OUT AND CERTIFICATION
MTGL, Inc. is very aware of the requirements for project certification and close out. Our role during construction will incorporate daily review of the technicians and inspection activities to define areas that may need to be re-tested. In some cases, an RFI is issued to the architect for approval. Our corporate policy is to work with the associated sub-contractor to correct the failing areas rapidly as to not interfere with the critical path of construction. In the event the item is not cleared up by means of a re-test or an RFI within the first 72 hours, a deficiency log will be created and will circulate with each week’s reports until resolved.

MTGL’s staff is looking forward to working with you on this project. Please contact me at (714) 632-2999 or via email skoch@mtglinc.com during the review process.

Sincerely,

Steven Koch - Senior Vice President

Your DBE certification applies only for the above codes. You may review your firm’s information in the CUCP DBE database which can be accessed at the CUCP website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to assure continuing DBE status, you must submit annually a No Change Declaration form (which will be sent to you) with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm’s DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the DBE Declaration, such as changes in your firm’s name, business mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. I. BACKGROUND
Prior to the reduction in Measure TT Staffing, the need for additional Project Managers was discussed. On July 30, 2013, due to the number of staff and the number of large construction projects awarded (over $60 million), the Board of Education approved of staff adding a consultant for project management.

II. STAFF ANALYSIS
Ned K. Construction Service Inc. was identified as a top candidate that met the qualifications for the Project Manager with background emphasis in Inspection Services. District Staff recommends that the Board approve the Consulting Contract with Ned K. Construction Service Inc., for Project Manager Services for the term commencing on July 1, 2017 through June 30, 2018.

The Facilities Committee vetted this Board Report on May 18, 2017.

III. FISCAL IMPACT
The contractual services are estimated to cost approximately $164,320.00 (not-to-exceed) at a set rate of $84.00 per hour, for the term commencing July 1, 2017 through June 30, 2018. These funds are available in the Measure TT account.

“Providing Value in Quality Control”
MTGL requests a time & material basis contract to be provided hour by hour as scheduled. MTGL reviewed the plans, specifications, and required inspections as defined on the DSA Form 103 for required conformance testing. MTGL understands the project will be to modernize an 85,277 Sq. Ft., three story structure over 590 days.

Many variables in construction provide difficulty in establishing the anticipated costs for Professional Services which are compensated hourly. MTGL’s proposal utilizes a consistent unit rate for inspection to provide value, and defined at 1% of the DSA’s listed value.

PROJECT APPROACH
MTGL, Inc. recognizes that each project is different, presenting a unique set of conditions and challenges. Our staff does not approach the same methodology to every project. With each project, our staff develops an implementation plan unique to the specific needs of the project and client. Although we customize our approach to each project, our experience in providing services throughout Southern California identified several approaches that greatly improve the project’s quality and efficiency.

UNDERSTANDING THE PROJECT
The first step in any project is to gain a full understanding of the project parameters, needs and specific conditions. Upon notice to proceed, our Project Engineers will work with PUSD or their representative to gain a thorough understanding of the project. Our Engineers and Project Managers will then review all available data. DSA has described this project as Additions to 1-Existing Administration, Library, Student Store.; Alterations to 1-Exist. Classrooms.

TEST AND REPORT DELIVERY TIMELINE
LABORATORY TESTS
MTGL, Inc. strives to provide test results in a timely manner. Laboratory results of concrete compression testing often are the indicators of compliance for stripping of forms. Results will be faxed/e-mailed to the jobsite daily if needed. Should testing reveal a deficiency the Contractor and District will be notified by way of a telephone and e-mail within two hours.

Final laboratory reports for typical tests are provided within seven (7) calendar days. If requested, preliminary verbal results can be provided within one business day. In the event that a sample yields abnormal results or fails a test, we provide verbal notification within 2 hours, with the final written report delivered within 24 to 48 hours. After a failed test, we fast-track reporting of subsequent re-tests and provide a final report within 3 to 4 business days, or sooner per client request. A record of all testing will be kept for the final verified report at the completion of the project by our engineer.

### 20. NONDESTRUCTIVE TESTING:

**WAVE**

**OTHER**

Section 1704A.15
**FIELD SERVICES**

**CONCRETE CONSTRUCTION**
Concrete construction services can include, but are not limited to, mix design review, reinforcing bar placement inspection and verification, batch plant inspection, observations during concrete placement, and field sampling/testing of concrete to include verification that the proper mix is being utilized, concrete slump, temperature, air entrainment, unit weight, and fabrication of concrete cylinders for compression testing. Appropriately certified (ICC and/or ACI) technicians will conduct the indicated services. Daily inspection reports will be provided to the authorized PUSD representatives.

Laboratory concrete construction testing services can include tagging and sampling of reinforcing steel at the production plant and reinforcement bar testing for tensile and bend, as well as compression testing of test cylinders. Laboratory test reports will be issued as discussed further in this report.

**MASONRY CONSTRUCTION**
The certified masonry special inspector services will consist of verification of materials to include reinforcement, concrete masonry units, mortar and grout. Following their verification they will observe the contractor during placement of reinforcement, placement of concrete masonry units, to include observation of motored bed and head joints, and grout placement. During grout placement our inspector will verify pour heights, check for proper clearances and check for proper consolidation during vibrating operations. In addition to their observations and verifications, material sampling will be performed on mortar, grout and concrete masonry unit (CMU) prisms to verify compressive strength per project specifications. Daily inspection reports will be provided to the authorized PUSD representatives. Laboratory test reports will be issued as discussed further in this report.
**STRUCTURAL STEEL CONSTRUCTION**

An American Welding Society (AWS)-certified CWI inspector will review plans, specifications, and approved shop drawings as part of the structural steel construction inspection services. The inspector will review applicable sections of referenced codes, particularly the American Welding Society Structural Welding Code (AWS D1.1) and the Manual and Specifications of the American Institute of Steel Construction (AISC). The inspector will review welding procedures qualifications when other than standard AWS pre-qualified joints and procedures are involved. The inspector will check each welder’s certification and verify that the welder does work only as covered by their certification. The inspector will keep a written record of each welder by name. The inspector will inspect joints for proper preparation, including bevel, root faces, root opening, etc. The inspector will observe multi-pass welds continuously. Daily inspection reports will be provided to the authorized PUSD representatives.

Fabrication inspection often is required out of the county. MTGL, Inc. has three offices in Southern California and will service the request with our closest local office to offer the most cost effective approach to the district. MTGL, Inc.’s AWS-certified inspectors will review mill test reports and check heat numbers with material as received. The inspector will verify that proper identification of steel is maintained during fabrication. Sometimes Steel Fabrication are needed out of State. MTGL, Inc. has effectively provided inspections in Arizona, Utah, Iowa, Texas, and Minnesota. Final verified reports will be created and kept on file at the completion of each stage for a timely affidavit for project closeout and certification.

**TORQUE TESTING AND PULL TESTING**

MTGL, Inc. can perform Torque Testing and Pull Testing for epoxied/embedded anchorages as requested or required by the project documents/representatives. The request for such services will be scheduled by your on-site representative. Our dispatch department will assure we have the proper values for tension and the size and location of the bolts. Daily inspection reports with the results of the testing will be provided to the authorized PUSD representatives.

**FIELD REPORTING**

A daily report will be issued at the completion of the day with verified service hours signed by the DSA Project Inspector. The District’s Project Manager, Architect, Structural Engineer, and General Contractor’s Project Manager will be sent the reports, as appropriate.

**PROJECT CLOSE OUT AND CERTIFICATION**

MTGL, Inc. is very aware of the requirements for project certification and close out. Our role during construction will incorporate daily review of the technicians and inspection activities to define areas that may need to be re-tested. In some cases, an RFI is issued to the architect for approval. Our corporate policy is to work with the associated sub-contractor to correct the failing areas rapidly as to not interfere with the critical path of construction. In the event the item is not cleared up by means of a re-test or an RFI within the first 72 hours, a deficiency log will be created and will circulate with each week’s reports until resolved.

MTGL’s staff is looking forward to working with you on this project. Please contact me at (714) 632-2999 or via email skoch@mtglinc.com during the review process.

Sincerely,

Steven Koch - Senior Vice President

RE: Disadvantaged Business Enterprise Certification

Dear Ms. Siera:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended. This certification will be recognized by all of the U.S. DOT recipients in California. Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS codes form of the application package:

<table>
<thead>
<tr>
<th>NAICS (2007)</th>
<th>Description</th>
<th>Size Standard</th>

<td>Testing Laboratories</td>
<td>$14 million</td>
</tr>
<tr>
<td>541620</td>
<td>Environmental Consulting Services</td>
<td>$14 million</td>
</tr>
</tbody>
</table>

Your DBE certification applies only for the above codes. You may review your firm’s information in the CUCP DBE database which can be accessed at the CUCP website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to assure continued DBE status, you must submit annually a No Change Declaration form (which will be sent to you) with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm’s DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the DBE Declaration, such as changes in your firm’s name, business mailing address, ownership, management, or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. Should you have any questions, please contact us at 213-922-2600. For information on Metro contracting opportunities, please visit our website at www.metro.net.

Re: Small Business Enterprise Certification

Dear Ms. Sierra:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Small Business Enterprise (SBE) as required under the Metro SBE Program. Your firm will be listed in the Metro SBE database of certified SBEs under the following specific areas of expertise:

<td>541620</td>
<td>Environmental Consulting Services</td>
<td>$14 million</td>
</tr>
</tbody>
</table>

Your SBE certification is good for five years from the date of this letter and applies only for the above NAICS 2007 codes. Requests for additional or revised NAICS 2007 codes must be made in writing to Metro. After the five-year certification period, your entire file will be reviewed in order to ascertain continued SBE certification status. You will be notified of the pending SBE status review and any documentation updates necessary prior to the expiration date.

Should any changes occur that could affect your certification status, such as changes in your firm’s name, business/mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately. SBE certification is subject to review at any time.

Metro reserves the right to withdraw this certification if at any time it is determined that certification was knowingly obtained by false, misleading, or incorrect information. Metro also reserves the right to request additional information and/or conduct on-site visits at any time during the certification period. The firm thereby consents to the examination of its books, records, and documents by the Metro.

Congratulations, and thank you for your interest in Metro’s SBE Program. If you have any questions, please contact us at 213-922-2800. For information on Metro contracting opportunities, please visit our website at www.metro.net.
