

Health Science Immersion Program (HSIP) Summer 2019

Location: Cal State LA Campus

Session A: July 7-13 // Session B: July 14 – 20

- **Stand Out on College Apps**

- **Locally Based, Mission Driven Non-Profit Program to Introduce the Health Sciences Field to High School Students**

- **7 days of Science Professor Talks, College/Career Workshops, Discussions and a Small Research Project**

- **FREE** for all students on the Free/Reduced Lunch Program with an affordable fee for others

- **7:1 student to staff ratio**

Are you interested in exploring the health sciences and looking for something to do this summer? HSIP is an accessible, enriching and fun option for you!

In July 2019, we will give Southern CA high school students an introduction to the academic, research and professional components of the health sciences. Our curriculum is designed to help students consider their future college experience and careers. Here are some of the key points of our 7-day curriculum taking place in classrooms at Cal State LA's campus:

- Listen and engage in lectures from 14+ Science Professors and PhD Graduate Students from institutions including UCLA, USC, Cal State LA and Cal Poly Pomona
- Hear from a doctor, dentist and other health professionals about their careers
- Prepare for college admissions in our counselor led workshop and engage in our career options and pathways workshops
- Work collaboratively on a small group research project to build science inquiry and public communication skills
- Be Part of Community That Values Learning and Mentorship!
