

2020-21 Average Student Attendance Rate

Disaggregated by School Site

Reflecting the CA School Dashboard inclusion criteria, the “eligible” sample below includes TK-12 students who enrolled with the school/district for at least 31 days and did not attend zero days (i.e., at least a partial day attended).

Average attendance rates are computed for each student by dividing the students’ total number of days attended divided by the total number of days enrolled.

In 2019-20 schools were physically closed due to a pandemic and schools were not required to record attendance after February 29, 2020. The 2019-20 school year therefore covers the period from the start of the school year through February 29, 2020. Most students learned remotely for the majority of the 2020-21 school year.
