# **School District Integrated Pest Management Plan**

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides<sup>1</sup>

| Pasadena Unified School District | 351 South Hudson Avenue, Pasadena CA 91109 |                           |  |  |  |

### **IPM** statement

ontacte

It is the goal of \_the Pasadena Unified School District \_to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: (Example: Focus on long-term pest prevention)

Pasadena USD pest control objectives and goals are to maintain a clean, safe, green and sustainable learning environment, minimizing the use of chemical pesticides when possible, through IPM principles and methods.

#### **IPM** team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

| Name and/or Title                            | Role in IPM program   |  |  |  |
|--|---|--|--|--|
| Director Facilities, Maintenance, Operations | Manage M & O Staff to ensure following the IPM principles and methods                   |  |  |  |
| Lead Maintenance Worker - Custodial          | Manage Custodial Leads at each site, to monitor and report indications of pest presence |  |  |  |
| Lead Maintenance Worker - Maintenance        | Manage Maint Leads to monitor and report indications of pest presence                   |  |  |  |
| Food Service Coordinators                    | Manage Food Service Managers at each site to monitor and report pest presence           |  |  |  |
| Lead Grounds Worker                          | Monitor and report indications of pest presence   |  |  |  |

#### Pest management contracting

| V | Pest management services are contracted to a licensed pest control business.  |
|---|---|
|   | Pest Control Business name(s): Armed Exterminators; Pest Options  |
| ~ | Prior to entering into a contract, the school district has confirmed that the pest control business understands the |
|   | training requirement and other requirements of the Healthy Schools Act.   |

# Pest identification, monitoring and inspection

Pest Identification is done by: School District staff; Contracted Pest control operators

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Custodial, Food Service, Maint. & Grounds Staff and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Pasadena USD staff monitors and inspects consistantly for evidence of pest presence, in facilities and grounds; pests include, insects, rodents, fowl, weeds and spiders.

## Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

| Pest    | Remove<br>food | Fix leaks | Seai<br>cracks | install<br>barriers | Physical removal | Traps | Manage irrigation |
|---------|----------------|-----------|----------------|---------------------|------------------|-------|-------------------|
| Rodents |                |           | V              | <u>~</u>            | <b>2</b>         | V     |                   |
| Insects |                |           | V              |                     | <b>U</b>         |       |                   |
| Fowl    |                |           |                |                     |                  |       |                   |
| Spiders |                |           | <b>V</b>       |                     |                  |       |                   |
| Gophers |                |           |                |                     |                  | V     |                   |
| Weeds   |                |           |                |                     | v                |       |                   |

## Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

See approved list at www.pusd.us, Helathy Schools Act 2000 page, under Services: Facilities, Maintenance and Operations.

## **Healthy Schools Act**

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

## **Training**

| per a restriction of the second secon | The state of the s | 41 1 1             |                      |                        | prior to pesticide use:    |
|--|--|--------------------|----------------------|------------------------|----------------------------|

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

## Submittal of pesticide use reports

| $\overline{\mathbf{v}}$ | Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt from HSA recordkeeping, |
|-------------------------|---|
|                         | are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form        |
|                         | provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)   |

#### Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: www.pusd.us
- This IPM plan is sent out to all parents, guardians and staff annually.

### Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review:

December 15, 2021

have reviewed lifts school district's IPM Plan and it is true and correct. I acknowledge/that

Date: December 4, 2020 Signature:

These posticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as creck and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
