

Thirteen Colonies Project

The first colonies in North America were along the eastern coast. [Settlers](#) from Spain, France, Sweden, Holland, and England claimed land beginning in the 17th century. The struggle for control of this land would continue for more than a hundred years. Life in these colonies was very hard. The colonists had come hoping to find gold; instead, they could barely find enough to eat!

Your assignment for this project is in three parts:

- Journal - 2 entries person (minimum 6 entries per project) - this is in a "diary" form - write as if you are living in this colony!
- Presentation (each person in your group must present)
- Multimedia specifically representing your colony - **this part needs to be preapproved by me!** Some examples can include: powerpoint, infomercial/video, song/rap, model, representative food, etc.

****Your presentation to our class should include the description/details of creating your multimedia, and should be 10 - 15 minutes in length - 20 minutes maximum.****

****You may do this project solo or within a group - maximum 3 people.****

Be creative! Have fun! Work together!

Due October 12th
